

VOLUNTEER TOOLKIT

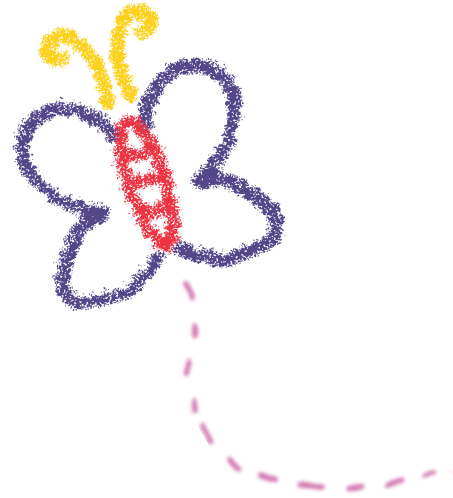

Dear Friend,

Thank you for serving at Respite Care of San Antonio (RCSA)! Your time, care, and commitment are invaluable to supporting the children with special needs and complex medical conditions at RCSA. With your help, we are able to serve hundreds of children and their families each year.

We have created a volunteer toolkit for those who wish to become more involved with our mission. This toolkit contains messages for social media, along with graphics, ideas to engage your network, and fundraiser opportunities.

To learn more about our services, visit our website at respitecaresa.org.

If you have any questions regarding this toolkit, please email our Volunteer & Development Manager, Zoë Reusser at zreusser@respitecaresa.org.

Language to Use When You Post

At Respite Care we serve individuals with complex medical conditions and disabilities. When we refer to the children in our care, we do our best to use person-first language. Person-first language focuses on introducing the person before their disability. For example, instead of a "Down's baby" we might say "a little one with Down syndrome".

We use terms like "disabled", "special needs", "complex medical needs", and "differently-abled" to describe the diagnoses of our clients.
